Subject: Golden Eagle Sunset Customer Announcement

Dear Valued Customer,

Teal Drones is committed to bringing you the highest quality solutions to meet your growing mission needs. As Teal continues to develop and release new products, we must continuously evaluate our product portfolio to ensure we always strive to exceed the quality expectations from our customers.

The purpose of this notification is to inform you that Teal has officially sunset the Golden Eagle. Effective immediately, Teal will no longer be supporting the Golden Eagle product line hardware. The standard warranty on Teal products is 12 months. According to our records, all Golden Eagles in the field fall outside of these warranty terms. We will continue to support Golden Eagle software until further notice.

Teal Drones is committed to the deep relationships we have developed with our customers, and we look forward to enhancing those relationships as we grow our product portfolio. If you desire to upgrade your fleet with our latest capabilities, please contact your Business Development representative for more information.

If you have further questions or concerns, please contact our Customer Support Team anytime.
